RE: Consultation response on draft document 'Communicating environmental performance along the food chain'

Dear Sir/Madam,

On behalf of Working Group 2 on Environmental Information Tools we wish to thank you for your valuable and positive feedback to the draft report 'Communicating environmental performance along the food chain' that we received during the consultation.

As you are aware, one of the three key objectives of the European Food Sustainable Consumption and Production Round Table is to identify suitable tools and provide guidance for voluntary environmental communication to consumers and other stakeholders. To this end, Working Group 2 sought the views of stakeholders on the draft report from the public consultation that ran from 15 July – 15 September 2011.

Working Group 2 has reviewed the feedback and has made changes to the report in reaction to the inputs received. However, some of the comments received are more relevant to the future work of the Food SCP Round Table and will be addressed in due course.

The received feedback will now be uploaded the Food SCP Round Table Round Table [website](#).

The report is foreseen to be presented in the plenary meeting that will place on 8 December in Brussels and will be released publicly following its adoption.

Should you require any further information, please do not hesitate to contact the Round Table secretariat at info@food-scp.eu.

Yours sincerely,

Tania Runge and Jeroen Van Laer

Working Group 2 Co-Chairs

On behalf of Working Group 2 of the European Food SCP Round Table
